This is how Director Hoover spent his time and tax money, or those under him wanted him to - reqading the federal employees' column in the WxPost and asking for a search of FBI records relating to former Commission employees - after it went out of business.

They found derogatory information on 16! It was derogatory for Mosk to be the son of the California State AG!

An incredibly large percentage were federal employees or had applied for federal employment or were investigated as prospectives, including for judges and AUSAs and Department lawyers.

62-109090-385 is filed (FBI-Commission)
